

ANTHROPIC

Anthropic Frontier AI: Agentic AI Collaboration and Workflow Integration – Claude

G-Cloud 15 Pricing Document

January 2026

Pricing

Claude is Anthropic's family of foundation models / large language models (LLMs) designed to be helpful, harmless, and honest. Our approach prioritises safety and beneficial outcomes. Claude is ideally suited to governmental and enterprise AI requirements and has particular strengths in fields such as coding, complex reasoning, agentic tasks and tool use.

We provide pricing for our products below. TPM refers to 'tokens per minute'.

Claude Developer Platform / API
