

Emergn G Cloud 15

Terms and conditions

Terms and Conditions

- Standard G-Cloud terms and conditions apply
- Service constraints:
 - Leadership, consulting, product and learning roles are typically based in the UK and are available for on-site, hybrid or remote work.
 - Engineering roles are typically based nearshore (EU – primarily Latvia and Portugal), working remotely but with the option of occasional (reimbursable) travel.
 - Any other constraints depend on the size, duration and nature of the engagement and will be mutually agreed upon with the buyer prior to contracting.
- Other assumptions, dependencies and terms and conditions are to be mutually agreed between Emergn and the Buyer prior to contractual signature. These vary dependent on the nature, scale and duration of the contract.
