

Amorphic Data Platform – G-Cloud 15

Cloudwick Amorphic SaaS and Cloud Support Pricing

This document sets out the pricing structure for the Amorphic Data Platform under the G-Cloud 15 Framework. Pricing is designed to be transparent, modular, and aligned with UK public sector procurement guidance. All prices are exclusive of VAT.

1. Pricing Model Overview

Amorphic pricing is structured across four clear components:

- Platform Subscription (licence)
- Optional Platform Add-on Modules
- Optional Managed Services
- Optional Professional Services

AWS infrastructure costs are billed directly by AWS and are not included in the prices below.

2. Platform Subscription (Core)

The core subscription provides access to the Amorphic Data Platform, including self-service data ingestion, transformation, analytics enablement, governance, security, and automation.

Included capabilities:

- Secure multi-account AWS architecture
- Batch and streaming data ingestion
- Data transformation and orchestration
- Metadata management and data catalogue
- Role-based access control (RBAC)
- Cost monitoring dashboards
- BI and analytics integration (e.g. Amazon QuickSight)
- GenAI-ready data pipelines

Indicative subscription pricing:

Starter (Pilot): £3,500 – £5,000 per month

Business: £6,000 – £9,000 per month

Enterprise: £10,000 – £15,000 per month

3. Optional Platform Add-On Modules

Add-on modules can be enabled alongside the core platform subscription to meet specific use cases.

Amorphic GenAI (Natural language data and document interaction): £2,000 – £4,000 per month

Advanced Data Quality & Lineage: £1,000 – £2,500 per month

4. Managed Services (Optional)

Cloudwick provides optional managed services to support platform operations, aligned with UK public sector SLAs. Managed services include:

- Incident management
- Patch management and upgrades
- Security and compliance support
- Annual disaster recovery test
- Capacity management support
- Cost optimisation Support and FinOps reviews
- Service reporting and governance meetings

Business Support (8x5, next business day): From £2,000 per month

Enterprise Support (8x5, same-day response): From £4,000 per month

Custom Support (24x7, SLA-backed): From £7,000 per month

5. Professional Services (Optional)

Professional services are delivered on a time-and-materials or fixed-price basis for defined scopes. Indicative day rates for onshore resources:

- Solution Architect: £900 – £1,100 per day
- Data Engineer: £750 – £950 per day
- DevOps / Platform Engineer: £800 – £1,000 per day
- UX / Data Product Specialist: £700 – £900 per day
- Delivery / Programme Manager: £850 – £1,050 per day

Typical engagements include discovery and assessment, platform onboarding, data migration, pipeline development, GenAI use case enablement, and knowledge transfer.

6. Example Buyer Scenarios

- Local Authority (Departmental Use): Business platform subscription with IDP and Business Support.
- NHS Trust / ALB: Enterprise platform subscription with Amorphic GenAI and Enterprise Support.
- Central Government Programme: Enterprise subscription with multiple add-ons and Custom Support.

7. Commercial & Contractual Information

- Prices exclude VAT
- Minimum subscription term: 12 months
- Discounts available for multi-year commitments
- Pricing valid for the duration of the G-Cloud 15 framework
- UK public sector-friendly contractual terms
