Switchvox as a Service

January 2026

1 Introduction

This Pricing Document sets out the maximum framework prices for Switchvox as a Service as listed under the G-Cloud 15 Framework Agreement (RM1557.15). It is intended to give Buyers complete visibility of all costs associated with procuring, implementing, and using the service through the Digital Marketplace.

All prices contained within this document:

- Represent the highest charges that may be applied under the framework
- Are provided exclusive of VAT
- May be subject to annual indexation or uplifts, where stated in Section 5

The purpose of this Pricing Document is not only to confirm the core cost of the service but also to outline the associated commercial components such as setup fees, licensing, support, hosting, optional add-ons, and, where applicable, professional services charged under the Crown Commercial Service (CCS) SFIA model.

2 Service overview

Switchvox as a Service is a hosted SaaS solution designed to help organisations communicate and collaborate from anywhere to increase productivity and customer experience. The service is delivered entirely through the cloud and is hosted within a public cloud supplier-managed environment. Switchvox as a Service is the ideal replacement for existing and legacy PBX phone systems – on-premises or cloud.

Switchvox as a Service provides dial tone, mobile and desktop applications, call recording, analytics and reporting, informal contact centre, voicemail, IVR and more features. With the additional features of AI transcription and integration to Microsoft Teams and more than 200 CRM. Price includes 247x365 Platinum support.

Pricing for the service is based on a per-user, per-month model. The core price covers the primary service components, including licensing, hosting, updates, and standard support. Optional add-ons and enhancements are available where Buyers require additional capacity or extended functionality.

3 Core pricing

This section sets out the core pricing for Switchvox as a Service, including all mandatory costs required to use the service. The table below presents the maximum framework prices associated with the service, structured according to the relevant pricing model of per-user, per month.

All prices shown are exclusive of VAT and must be read in conjunction with the accompanying Service Definition and Terms & Conditions. Optional enhancements and add-on services are listed separately in Section 4.
