

Bullet Safe Trade

The Platform to Manage your
Approved Trader Scheme

Minimising Rogue Traders

Safe Trade is a comprehensive platform to empower local authorities to manage their approved trader schemes. Co-designed with Kent County Council, this platform streamlines the application, vetting and management processes whilst offering the residents a directory of trusted trades people.

**Our mission is to enable
councils to offer community
protection in a simple,
affordable platform**

Pricing Information

The commercial model has been developed in partnership with councils, and on their request is based on population numbers. Costs cover the build, deployment, training, ongoing management, access to dashboards and interfaces for administrators, vetting team, trade members and residents.

Any bespoke changes to function would incur additional charges.
