- Up to 250 unique sign ups: £31,500

- Up to 450 unique sign ups: £37,000
- 450+ unique sign ups: £37,000 + £20 per additional sign up beyond 450

Bespoke Costs

Our tool is out of the box, if you require more bespoke work on the build, we can quote for this on a one off basis. Our tool also will work well standalone but we understand that you will have existing stop smoking support on offer. Where you'd like data to flow into existing CRM portals or intervention distribution platforms, we can work with relevant providers to scope out integration feasibility and cost up work involved as a one off piece of work. This could follow initial launch for ease.
