

5G MANAGED PRIVATE NETWORK SERVICE CHARGES

Description

The Boldyn 5G Private Network Service is designed to provide a high level of cost certainty for customers; with ordering packages to suit a range of requirements for indoor and outdoor radios.

Services are offered on 3 Year or 5 Year terms as a managed service with no up-front capital costs.

The Base Service comprises the following elements

- 5G Private Network Core at Customer Site
 - Single server and switch design
 - Licensed for 300 subscribers and maximum 10 radios
 - Concurrent user licenses up to 50%
- Initial Site Survey for Server Room co-location of infrastructure
- Customer requirements gathering
- Project management support for Core Infrastructure stage
- Design of 5G Private Network Core
- Delivery of Core
- Commissioning of Core
- Set up of NOC services
- Full NOC support services based on Monday~Friday business hours support

	3 Year term	5 Year term
Base service	Price per year	Price per year
	£42,700	£33,650

The Base Service will determine the customer requirements for coverage and capacity to be delivered by the 5G Radio Access Network ('RAN') including outdoor and indoor requirements.

The **5G RAN Service** comprises the following elements:

- Full site survey to determine radio types (indoor/outdoor) and quantities to meet customer coverage and capacity business requirements
- Project management support, scaled to number and type of radios
- RAN design
- Deliver of RAN
- Commissioning of RAN
- Handover to operational services

Each type of radio has a defined charge to be added to the Base Service.

As a worked example. The Base Service requirements gathering, determines that full outdoor coverage is required and 2 small buildings require connectivity. The customer would be seeking a 5 year managed service and operational support.

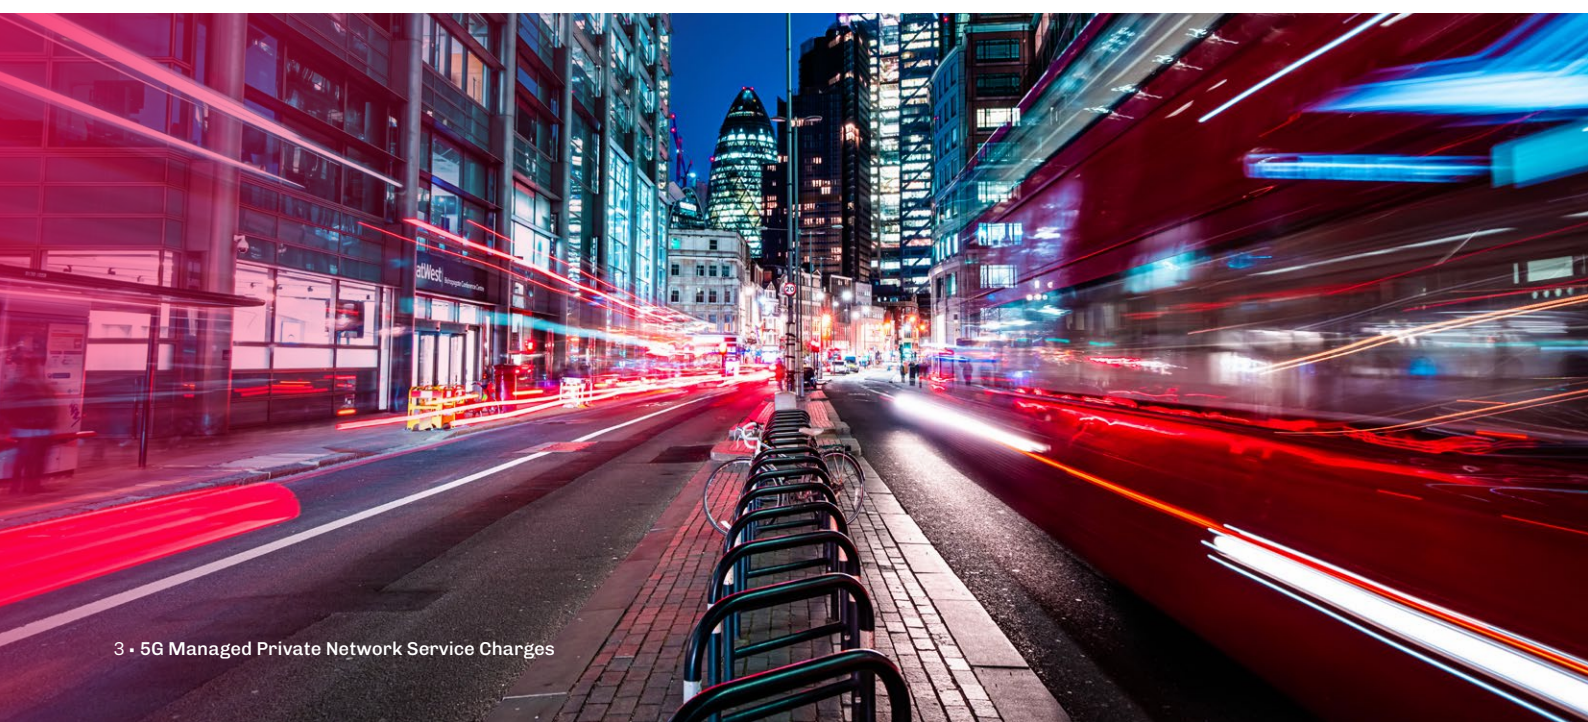

Service	Qty	5 Year Term Price Per Year
Base Service	1	£33,650
Outdoor Radio	5	£48,193
Indoor Radio	2	£20,857
Total Annual Charges		£102,700

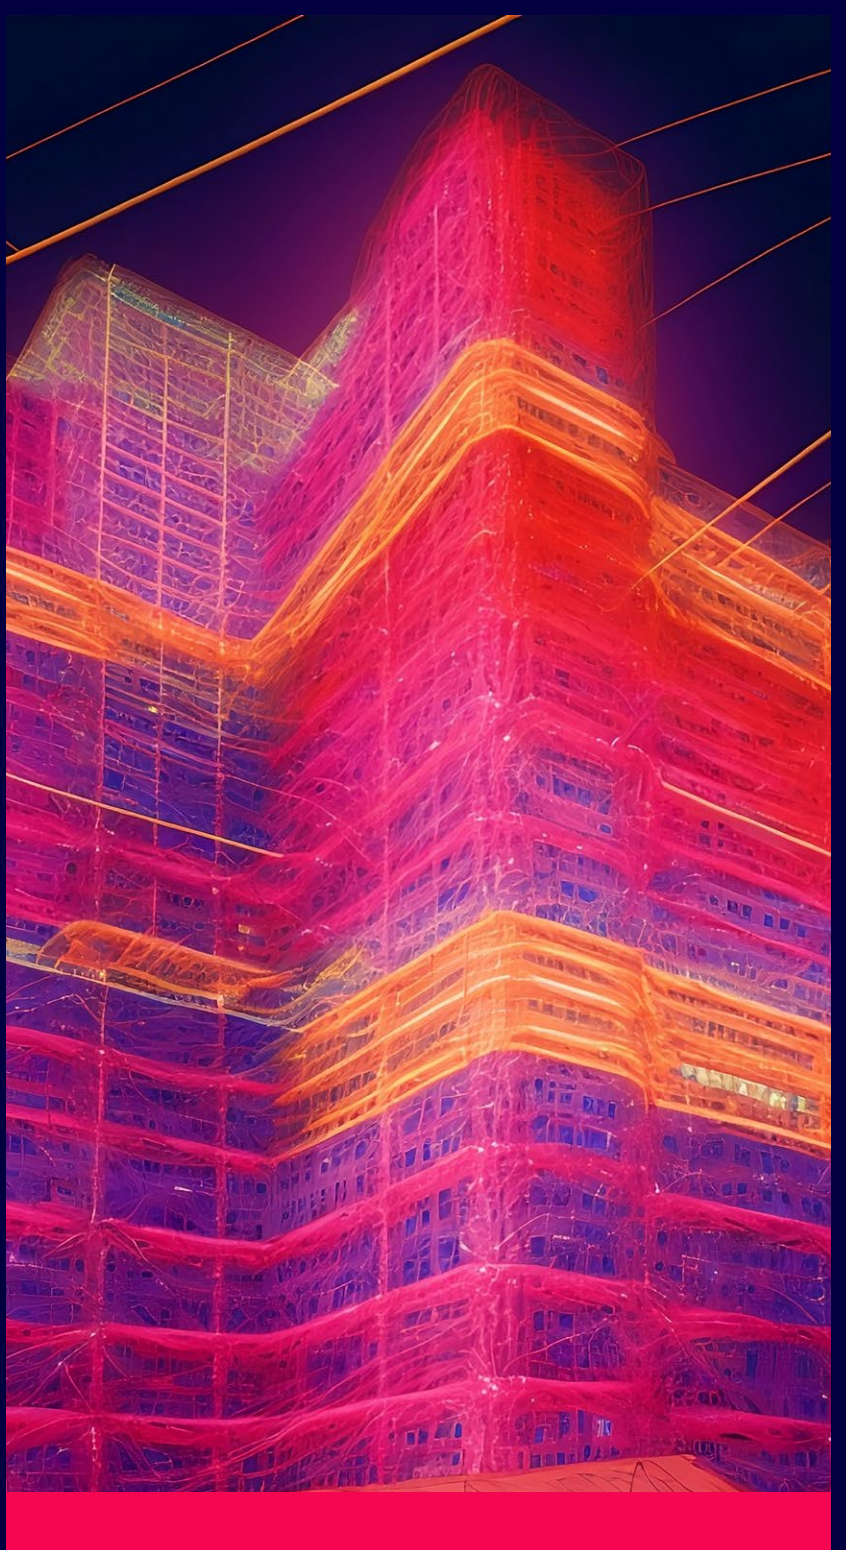

Fully pricing details for customer specific requirements are confirmed individually.

The Term commences from the date of commissioning and handover of services to Boldyn NOC Operations.

Service charges are payable quarterly in advance.

Prices quoted are subject to annual inflation at CPI rates.

Boldyn Networks delivers the advanced shared network infrastructure needed for a smart, inclusive, and sustainable future. We enable connected transit, venues, enterprises, heavy industry, college campuses and smart cities to create new possibilities in the way people live, work and play.

We don't just talk about the future. We exist to help build it. Creating the foundation from which a better collective future can be imagined.
