Strider's pricing structure is set up to allow for maximum flexibility and optionality over the duration of a contract. Our modular approach aligns to various deployment options whether through API, hybrid cloud, or on-site integrations. Beyond general client service expectations outlined in SLAs, additional support is available for purchase via workshops and research projects. These are to be scoped and agreed upon between Strider and the customer according to their needs and interests.

Strider Intelligence Platform ***Product Modules***		**Annualised Tier** ***Deployment complexity level scoped and finalised as part of the contracting process***				
Item	**Product Description**	**1**	**2**	**3**	**4**	**5**
1	**Insights** An advanced risk intelligence tool that helps you identify and respond to state-sponsored risks targeting your technology and people. It includes three modules: Targeted Technology, Risk Signals, and Talent Flows, providing regular updates and actionable context for faster, more confident decision-making. Up to 9 named users.	£225,000	£270,000	£315,000	£360,000	£405,000
2	**Shield** An email security tool that filters out state-sponsored solicitation attempts with verified data. Up to 9 named users.	£52,500	£63,000	£73,500	£84,000	£94,500
3	**Search People** A due diligence tool to identify risk signals between individuals and state-sponsored actors. Up to 9 named users.	£150,000	£180,000	£210,000	£240,000	£270,000
4	**Search Organisations** A third-party due diligence tool that reveals hidden security, compliance, and reputational risks. Up to 9 named users.	£150,000	£180,000	£210,000	£240,000	£270,000
5	**Custom Data** Examples include embedding third party data, client data, and other highly complex data into items 1-4 within the Strider Intelligence Platform. Levels of complexity are scoped by search capacity, refresh rates, total data objects, # of relationship parameters, source document format, etc. Basic ("non-complex") data set examples could be a list of Registered PLA Suppliers, PRC Talent Program names, etc.	£400,000 *(Third party data)*	£425,000 *(Third party data)*	£450,000 *(Third party data)*	£600,000 *(Standard client data)*	£1,600,000 *(Highly complex data)*

Other Strider Offerings		**Volume-based Tiers (annualised)**				
Item	**Product Description**	**1 RFI**	**5 RFIs**	**10 RFIs**	**25 RFIs**	**25+ RFIs**
6	**Request for Information (RFI)** UK government customers may purchase access to bespoke annual bundles of analytic reports produced by Strider's Intelligence team + platform through Requests for Information (RFIs). An RFI allows for a detailed inquiry into a single topic or entity, which may include: a person, an organization, an event, a program, or publication. Queries must relate to locations within Strider's current focus areas: The People's Republic of China (PRC), Russia, Iran, and the Democratic People's Republic of Korea (DPRK).	£20,000 per RFI	£19,400 per RFI *£97,000 annually*	£18,800 per RFI *£188,000 annually*	£17,500 per RFI *£437,500 annually*	*Additional volume-based discounts*
		5 Seats	**10 Seats**	**25 Seats**	**50 Seats**	**50+ Seats**
7	**Platform Access - (User Licenses)** Strider Platform credentials for named users. Provides data access associated with products purchased in addition to federated search, risk relationship mapping, reporting, monitoring, and other analytics and workflow automation tools. Applies to items 1, 3, and 4.	£12,750 per seat *£63,750 annually*	£12,000 per seat *£120,000 annually*	£11,200 per seat *£275,000 annually*	£10,000 per seat *£500,000 annually*	*Additional volume-based discounts*
