Pricing

Please note typical durations listed above are indicative and pricing is bespoke to each engagement depending on the complexity of the system under test and delivery resource profiles such as qualifications, clearances, and professional experience.

Lead Times

Lead times for the delivery of most services are typically 1-2 weeks and reports are produced within 5 working days of the last allocated reporting day.

Security Clearances

All of Forfend's penetration testing services are delivered exclusively within the UK with British-based personnel and can be delivered remotely or onsite. Our team members hold all the necessary National Security Vetting clearances to meet any requirement regardless of the sensitivity of the system or environment under test.
