

Pricing overview

The N1 Platform is offered as a SaaS monthly subscription. The costs for using the system comprise application costs, functional costs and support costs. Implementation costs will be charged as one-off costs.

All prices are provided excluding value added tax (VAT). Prices may be increased annually based on the Dutch CBS Consumer Price Index (Index 62). Adjustments follow the year-on-year change published by CBS and take effect with a 2-month notice.

Application costs

The monthly application costs are calculated based on the number of users

Clients

SKU	Description	Per User
N1-CLI-AND-V1	Mobile app	€ 16.43
