Key Differentiators

Service Implementation

DevOps Performance Assessment Process (2-4 weeks)

This is where we get an accurate understanding of the current performance of your teams and their software delivery lifecycle.

Baseline the Performance Assessment

Establish the methods for measuring the key performance metrics.

Feedback, Research and Workshops

Conduct interviews with the teams, review the codebase and process. Run targeted workshops to drill into specific DevOps areas.

Present Results

Explore the findings, present and review the conclusions.

4.0 About Accenture

Accenture is a leading global professional services company that helps the world's leading businesses, governments and other organisations build their digital core, optimise their operations, accelerate revenue growth and enhance citizen services—creating tangible value at speed and scale. We are a talent- and innovation-led company with approximately 799,420 people serving clients in more than 120 countries. Technology is at the core of change today, and we are one of the world's leaders in helping drive that change, with strong ecosystem relationships. We combine our strength in technology and leadership in cloud, data and AI with unmatched industry experience, functional expertise and global delivery capability. We are uniquely able to deliver tangible outcomes because of our broad range of services, solutions and assets across Strategy & Consulting, Technology, Operations, Industry X and Song. These capabilities, together with our culture of shared success and commitment to creating 360° value, enable us to help our clients reinvent and build trusted, lasting relationships. We measure our success by the 360° value we create for our clients, each other, our shareholders, partners and communities
