1.0 Scope of our services

Service introduction

We provide 'Managed Redbox Copilot,' a trusted AI service for civil servants, featuring advanced tools for rapid, secure AI solution development. Our extensive codebase supports productiongrade, Retrieval Augmented Generative AI, with a strong focus on data privacy. Our fork of the code extends publicly available Redbox features with new options.

Options include local LLM hosting, personalisation, and flexible deployment across various cloud infrastructures. Compliant with government standards, we ensure a seamless transition from proof of concept to full production

Service features

- Zero Data Leakage: Secure and private with self-hosted AI models.
- Custom Model Selection: Flexible AI model choice and hosting.
- Service Variability: Tailored AI solutions, both private and public.
- Secure Access: SSO integrations ensure secure user interactions.
- Interactive Document Engagement: Chat with uploaded documents for better data retrieval.
- Advanced Document Processing: Enhanced pipelines for precise document extraction.
- Semantic Search Capabilities: Advanced semantic search with extended vector databases.
- API Response Construction: Assists in crafting precise API responses.
- Experienced Team: Rely on our seasoned team for complex AI deployments.

Service Benefits

- On Shore security cleared team
- Cost Efficiency: Lower operational costs by avoiding in-house AI setup.
- Speed to Market: Quicker AI deployment for faster market response.
- Scalability: Adjusts easily to increasing data needs.
- Risk Reduction: Minimises security and compliance risks.
- Core Focus: Frees up staff to focus on essential duties.
- Innovation Access: Direct access to cutting-edge AI technologies.
- Custom Integration: Smooth integration with existing systems.
- Reliability: Dependable performance with expert management.
- Strategic Advantage: Enhances decision-making and service outcomes.

2.0 Service Implementation

Inform

(4-6 weeks)

We work with your teams to list all the use cases, and assess them for feasibility and effort. We downselect your high value low risk AI services.

Innovate

(3-6 months)

We work in your organisation to implement the first cut of the infrastructure, and implement the first use case as a POC for review, before starting a wider portfolio of use cases.

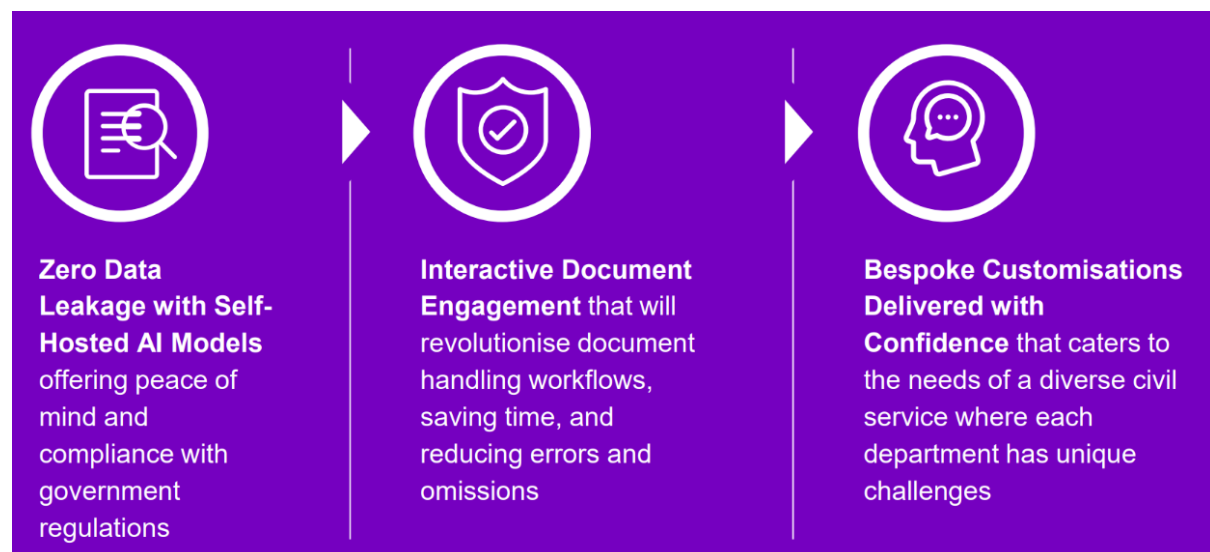

Industrialise

(3-6 months)

As we identify successful AI use cases, we plan a wider roll out to your organisation, that works to industrialise and harden your AI solutions so they become trusted infrastructure.

Key Differentiators:

We deliver lasting value from our deep expertise in Generative AI. At the heart of what makes us different is our ability to quickly customise and extend Redbox Copilot so you can adopt new innovations in AI

3.0 Pricing
