- Reduce risk of outage
- Improved understanding of application and systems quality Service Implementation

## Service Implementation

### **Current Service Assessment (1-4 Weeks)**

This is where we get an accurate understanding of the current technologies and processes

### **Migration Execution (2 -8 Weeks)**

Full redesign of current services and process with stakeholders followed by development and implementation of the new service

### **Service Support (3 Months +/-)**

Where required Accenture can continue to support services, updating as the product evolves over time

## Key Differentiators

Our consultants advocate for software and product quality throughout the development lifecycle, 'Shifting left' to increase defect prevention and reduce the cost of defect resolution

Utilising the decades of industry-leading experience from our Consultants and Engineers, we've built a library of templates, frameworks, tools, checklists and process flows mapped to all phases of the software delivery lifecycle

Our high-value analytical and automation-led software testing approach enables clients to understand risk and release more frequently with increased confidence

## 4.0 About Accenture

Accenture is a leading global professional services company that helps the world's leading businesses, governments and other organisations build their digital core, optimise their operations, accelerate revenue growth and enhance citizen services—creating tangible value at speed and scale. We are a talent- and innovation-led company with approximately 799,420 people serving clients in more than 120 countries. Technology is at the core of change today, and we are one of the world's leaders in helping drive that change, with strong ecosystem relationships. We combine our strength in technology and leadership in cloud, data and AI with unmatched industry experience, functional expertise and global delivery capability. We are uniquely able to deliver tangible outcomes because of our broad range of services, solutions and assets across Strategy & Consulting, Technology, Operations, Industry X and Song. These capabilities, together with our culture of shared success and commitment to creating 360° value, enable us to help our clients reinvent and build trusted, lasting relationships. We measure our success by the 360° value we create for our clients, each other, our shareholders, partners and communities
