# 1.0 Scope of our services

## Service introduction

The DevOps Scaled Cloud Automation Service provides a full range of DevOps tools, capabilities and expertise with a particular focus on environments constrained by data residency and sovereign requirements.

Enabling quick adoption of DevOps methodologies to solve a large variety of problems including cloud migrations, CI/CD, fully automated testing and deployments. Combined with best-in-class DevOps, cloud and security practices.

## Service features

- On shore security cleared team
- Custom roadmap designed to meet business objectives via DevOps Assessment
- Modular, repeatable delivery framework via the Software Factory
- Automation built for scale, with reusable modules across the organisation
- Best practices for application and cloud lifecycle management
- Expertise in major DevOps cloud providers (internal, external) and toolsets
- Expertise in managing DevOps at scale
- Fully automated testing and CI/CD implementation
- Workshops, coaching and up-skilling of in-house DevOps teams
- Full automated end-to-end immutable deployments
- Expertise in security and performance testing cloud applications.

## Service benefits

- Business objectives are aligned with development and operation teams goals
- Increase deployment frequency allowing new functionality to be released faster
- Reduction in defects and improved test coverage
- Empowering development teams with greater control whilst maintaining effective governance
- Increase visualisation, versioning and auditing of deployed applications and infrastructure
- Simplified build and deployment methods reducing complexity and improving consistency
- Cost effective Cloud solutions, and DevOps best practices

- Continuous knowledge sharing and collaboration throughout the project lifecycle
- Zero downtime, multi-region and cloud agnostic deployments
- Dedicated and experienced teams capable of hitting the ground running

## Service Implementation

### DevOps Performance Assessment (2-4 weeks)

This is where we get an accurate understanding of the current performance of your teams and their software delivery lifecycle.

### DevOps Strategy (4-6 weeks)

We often see the desire to empower development teams to take greater operational ownership of the products they build and support.

### DevOps Execution (3 months +/-)

DevOps Execution is often the first step to embedding your DevOps capabilities. This is where we focus on the implementation of best practice within your teams.

## Key Differentiators

Scaling with Platform Ops creates a bespoke DevOps practice that best suits your business needs

Allows organisations to create a lasting culture of DevOps that is built around empowering developers while maintaining consistency, security and best practice between teams

Rapidly inject new DevOps capability into your development teams application life cycle

## 4.0 About Accenture

Accenture is a leading global professional services company that helps the world's leading businesses, governments and other organisations build their digital core, optimise their operations, accelerate revenue growth and enhance citizen services—creating tangible value at speed and scale. We are a talent- and innovation-led company with approximately 799,420 people serving clients in more than 120 countries. Technology is at the core of change today, and we are one of the world's leaders in helping drive that change, with strong ecosystem relationships. We combine our strength in technology and leadership in cloud, data and AI with unmatched industry experience, functional expertise and global delivery capability. We are uniquely able to deliver tangible outcomes because of our broad range of services, solutions and assets across Strategy & Consulting, Technology, Operations, Industry X and Song. These capabilities, together with our culture of shared success and commitment to creating 360° value, enable us to help our clients reinvent and build trusted, lasting relationships. We measure our success by the 360° value we create for our clients, each other, our shareholders, partners and communities
