Managed CHECK IT Health Check Services

1 WHAT THE SERVICE IS

Check (ITHC) services in line with NCSC (formerly CESG) requirements through partnership with trusted suppliers holding CHECK, CREST and PCI DSS accreditation. Leidos provides analysis of systems and networks to identify vulnerabilities, provide daily management throughout the engagement and detailed reporting with remediation actions upon completion.

FEATURES

- Large pool of CHECK, CREST, TIGER and PCI accredited testers.
- Both application and infrastructure services are available, with detailed reporting.
- Internal and external vulnerability testing (AWS/Azure/UKCloud clouds and hybrid).
- Carried out using proven methodology and SC cleared staff.
- Coverage of all Operating Systems and applications.
- Tests carried out by green light status qualified personnel.
- Black box and red team testing.
- Device configuration reviews.
- Intelligence from Open Web Application Security Project (OWASP).
- Suitable government / CNI processing SECRET / TOP SECRET material.

BENEFITS

- Highlights changes to be made to enhance security posture.
- Detailed reporting on all exploitations, issues and concerns provided.
- Prioritised recommendations for remediation allows quick and effective action.
- Post testing remediation of Infrastructure as a service (IaaS).
- Post remediation testing remediation of Platform-as-a-Service (PaaS).
- Post testing remediation of Software as a service (SaaS).
- Assurance of security posture.
- Satisfies UK Government annual Health check (ITHC) requirements.

OVERVIEW

Leidos provides a fully tailored cloud health check to ensure your investment in cloud is delivering your businesses' requirements in an effective, secure and cost-effective manner. Leidos offers a complete range of penetration testing services, providing NCSC CHECK testing through trusted partners. Services offered include:

- Network penetration testing - Both internal and external penetration tests following the CHECK standard.
- Application testing - Web and Desktop application testing to identify vulnerabilities.
- Wireless Penetration Testing - Test wireless networks to ensure they are secure.
- Server and Workstation build reviews - Ensure devices are correctly configured to minimise risks.
- Firewall ruleset review - Ensure boundary controls are effective and firewalls are effectively configured to secure your perimeters.
- Full details of offerings are found here: <https://cyber.leidos.com/resources/>.

Consultancy is delivered on a time and materials or fixed price basis, on-site throughout the UK, or from any of the Leidos offices. Leidos deploys staff from a wide pool of resources covering all technology and business process service lines, as required.

2 ANY ONBOARDING AND OFFBOARDING SUPPORT YOU PROVIDE

Where relevant, Leidos will adopt a consultative approach with customers to define and validate their requirements to determine how best to engage with the services. The onboarding and offboarding process is dependent on the specific requirements of the solution, and the delivery methodology agreed upon.

3 PRICING

Please refer to the associated Pricing Document relevant to this Service.

4 TERMS AND CONDITIONS

Please refer to the associated Terms and Conditions Document relevant for our Service Offerings.

5 FURTHER INFORMATION

Please send your requirement to publicsector@uk.leidos.com. Alternatively, if you wish to discuss your requirements in more detail, please send us the following information and we will be happy to contact you:

1. Your organisation name.
2. The name of this service.
3. Your name and contact details.
4. A brief description of your business situation.
5. Your preferred timescales for starting the work.

ABOUT LEIDOS

Leidos is a leading partner to the UK government and the Scottish government as well as having key client partners in transportation and energy.
