Data Analytics

1 WHAT THE SERVICE IS

Leidos offers a full data analytics service that empowers our customers to gain greater access to their data assets, to capitalise on untapped business intelligence (BI), and to make faster, more efficient decisions. Our data analytics solutions can be integrated with, or independent of, existing customer BI solutions to access, explore and visualise new operational and analytical insights in an intuitive way, according to customer requirements.

FEATURES

- Data Preparation and Data Quality Control;
- Data discovery, forecasting, and predictive analytics;
- Business Intelligence (BI) and Automated BI Reporting;
- Interactive Data Visualisations Tooling and Bespoke solutions;
- Geospatial and Location Intelligence Services;
- NoSQL and Non-Relational-Based Data Management and Analytics;
- Real-Time Data, Advanced Analytics and Embedded Analytics;
- Advanced Edge and Decentralised Analytics solutions;
- Consultancy and support to provide Citizen Data Science services;
- Graph Analytics and Natural Language Querying (NLQ) expertise;
- Analytics for Cloud (Azure, AWS, Google) and Hybrid platforms;
- Streaming data analytics services;
- AI-powered analytics integration;
- Self-service analytics enablement;
- Data storytelling and dashboard design services;
- Analytics governance and compliance frameworks.

BENEFITS

- Unifications of data silos, enabling access and improved organisational insights;
- Improved data quality through correct data preparation and rigorous quality control processes;
- Automation of analytical processes to increase efficiency and free human resources;
- Efficient decision-making using rich analytical methods and unified data assets;
- Proactive decision-making with forecasting and anticipation of future business needs;
- Personalisation enabled by Big Data Analytics, exposing individual and business requirements;
- Improved customer experience and intelligence extraction using advanced analytics solutions;
- Intuitive, easy-to-use interfaces, making data insights accessible and understandable for all users;
- Analytics solutions closer to data sources, using decentralised and low latency technologies;
- Cloud/hybrid technologies expertise enabling tailored solutions to customer requirements;
- Access to technology-agnostic practitioners securely delivering the client's mission objectives;
- Real-time analytics capabilities enabling rapid responses to operational and market changes;
- Enhanced competitive advantage by transforming raw data into actionable intelligence faster;

- Scalable analytics frameworks supporting growth and evolving business requirements seamlessly;
- Improved compliance and governance through transparent and auditable analytics practices.

OVERVIEW

Our Data Analytics Service is tailored to customer infrastructure strategies, whether that be On-Cloud or Hybrid, and can be delivered as part of a wider Leidos Solution offering or via consultancy.

The solutions offered by Leidos include:

- Data Preparation and Curation Services;
- Geospatial and Location Intelligence Services;
- Non-Relational-Based Discovery Services;
- Stream Analytics Services;
- Embedded Analytics Services;
- Business Intelligence (BI) Search Services;
- Augmented Data Discovery, Forecasts and Predictions Services;
- Advanced Edge Analytics Services;
 - Interactive Data Visualisation Services;
 - Graph Analytics Services;
 - Real-time and Low-latency Analytics Services;
 - Cloud and Hybrid Analytics Services;
 - Citizen Data Science Enablement Services;

We are technology partners and experts in delivering programmes with established Cloud-Technology providers, such as AWS, Microsoft Azure, Google Cloud, and other technology leaders in the data area, utilising COTS products and open-source technologies. We tailor offerings to customer requirements to provide maximum customer benefit with scalable, fit-to-purpose and cost effective solutions.

2 ANY ONBOARDING AND OFFBOARDING SUPPORT YOU PROVIDE

Where relevant, Leidos will adopt a consultative approach with customers to define and validate their requirements in order to determine how best to engage with the services. The onboarding and offboarding process is dependent on the specific requirements of the solution, and the delivery methodology agreed upon.

3 PRICING

Please refer to the associated Pricing Document relevant to this Service.

4 TERMS AND CONDITIONS

Please refer to the associated Terms and Conditions Document relevant for our Service Offerings.

5 FURTHER INFORMATION

Please send your requirement to publicsector@uk.leidos.com. Alternatively, if you wish to discuss your requirements in more detail, please send us the following information and we will be happy to contact you:

1. Your organisation name.
2. The name of this service.
3. Your name and contact details.
4. A brief description of your business situation.
5. Your preferred timescales for starting the work.

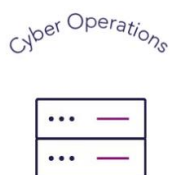

ABOUT LEIDOS

Leidos is a leading partner to the UK government and the Scottish government as well as having key client partners in transportation and energy. Leidos employs 1300 people across the UK supporting technology and business process transformation programmes for clients such as the Home Office, the Ministry of Defence, the Metropolitan Police Service and NATS.

The success of this work in the UK and beyond shows that we are a trusted partner in the region and that our people can deliver innovative solutions to solve the most challenging problems.

LEVERAGING OUR CORE CAPABILITIES

Our technical core capabilities define the areas in which technical excellence is critical, not only for our business, but in the work we do daily to help customers achieve the important missions on the frontlines of their industry. Explore our core capabilities [here](#).

INCLUSION AND DIVERSITY IN LEIDOS UNITED KINGDOM

Leidos is committed to creating a diverse and inclusive workplace, where every colleague has the opportunity to contribute, share their unique ideas and talents, and be supported in their career. Explore Inclusion and Diversity in the UK [here](#).

SOCIAL VALUE

We're committed to supporting sustainability initiatives, tackling workforce inequality and STEM education by enriching the communities to our operations. Learn more about Social Value in the UK [here](#).
