Service Overview

Power Platform Ecosystem Engagement is a service offered by ANS to help you put effective processes in place to make the most out of the platform by protecting your data whilst allowing for enterprise-wide innovation.

The programme consists of several workstreams that cover different aspects of the Power Platform including: environment management, security, governance, training and automation. The programme aims to enable you to scale the use of Power Platform whilst maximising business value.

Delivery Approach

Our delivery approach at ANS is centered around a customer-focused strategy, ensuring that we understand and address the specific needs of each client. We believe in a collaborative approach, involving key stakeholders to ensure that the solutions we deliver are not only technically sound but also align with the strategic vision of the organisation.

Whether engagements are delivered remotely, on-site or at our offices, we leverage leading frameworks & methodologies, including Agile and Prosci Change Management to provide services that cater to the specific requirements of next-generation projects and customer needs.

Below is an example Ecosystem Engagement Programme:

Workstreams

The ANS Power Platform Ecosystem Engagement will deliver a set of collaborative workstreams, work together sessions and an output report giving an overview and assets for the agreed strategies in the workstreams. The sessions topics are chosen by you from our wide range of workshops, some examples below:

- Monitoring Admin and Maintenance
- Environment Management
- Data Policies
- Security
- Data, Connections & Licensing
- Application Lifecycle Management (ALM)
- Governance and Compliance
- Maker Best Practice
- Operations & Support
- Portfolio Ideation
- Portfolio Project Intake Process

Output

The following outputs will be provided from the Ecosystem Engagement Program:

- Workstream Session Recordings and Documentation
- Overall Strategy Overview Document and Recommendations
- Assessment Documentation

Our Partnership

To get the best possible result from the Ecosystem Engagement, it requires a specific group of people from your business. Below is a guide to the roles we typically require to attend the Ecosystem Sessions:

The people recommended, but not limited to, are:

- Business Sponsor
- Power Platform Product / Program Owner / Low Code CoE Owner
- Global Administrator / M365 Administrator(s)
- Security Representative
- Business Representatives
- Solution Architect / Enterprise Architect

About Us
