Service Overview

Given the significant attention surrounding AI, it is essential for organisations to adopt a responsible approach to its implementation. This involves utilising Responsible AI practices along with effective monitoring strategies, which are crucial for enterprise-wide AI enablement.

ANS helps secure and maintain compliance across your estate, offering guidance on data security via Microsoft Purview as well as monitoring and analytics features for Copilot throughout Microsoft 365 Admin Centre, Power Platform CoE Kit and any other relevant areas where Copilot monitoring features are present.

We keep you informed and collaborate to develop effective AI governance and guardrails to help you through the hard part, priming you for a well-managed Copilot Co-Managed service with security at its core.

Delivery Approach

Our delivery approach at ANS is centered around a customer-focused strategy, ensuring that we understand and address the specific needs of each client. We believe in a collaborative approach, involving key stakeholders to ensure that the solutions we deliver are not only technically sound but also align with the strategic vision of the organisation.

Workstreams

The Governance and Analytics program will deliver a set of collaborative workstreams, work together sessions and an output report giving an overview and assets for the agreed strategies in the workstreams. The sessions topics are chosen by you from our wide range of workshops, some examples below:

- Data Loss Prevention
- Information Protection and Labeling
- SharePoint Advanced Management
- DSPM and DSPM for AI
- Copilot Analytics
- Data Lifecycle Management
- AI Agents Monitoring (Agents 365)

Output

The following outputs will be provided from the Governance and Analytics Program:

- Workstream Session Recordings and Documentation
- Overall Strategy Overview Document and Recommendations
- Proprietary tools to track Adoption and ROI
- Assessment Documentation

Our Partnership

To get the best possible result from the program, it requires a specific group of people from your business. Below is a guide to the roles we typically require to attend the sessions:

The people recommended, but not limited to, are:

- Business Sponsor
- Global Administrator / M365 Administrator(s)
- Security Representative
- Business Representatives
- HR and Legal
- Information Governance Representatives

About Us

We're a 750+ team of technology specialists and business experts, who, according to our customers 'get things done'. And we're on a mission to make the world's best cloud and digital services available for all.

Openness, ambition, honesty and passion are what drive us every day. We are bold, courageous, and innovative, and we do it like no other.

We're a Microsoft MSP Partner in the UK for Azure, Data and AI, Digital and App Innovation, Modern Workplace and Security. Our support and managed service makes it all easily accessible, so our customers get the best of Microsoft.
