Pricing

This service is delivered in two parts:

1. Work that we do on gathering requirements and selecting a product for you is charged at our G-Cloud 15 Lot specific rate card.
2. The ongoing provision of a product or service to you is charged at either the published price of the service where we have a partnership with that supplier, or at the published price of the service plus our 10% handling fee where we do not have a partnership in place.

Unless otherwise agreed, billing is monthly in arrears and is in GBP. If the product that we procure for you is paid for in another currency e.g. USD, we will convert the cost for you to GBP using the Arcus exchange rate which tracks the market and is set monthly. If the amount of foreign currency involved is sufficiently high (greater than £50,000 per month) we may be able to offer you as a chargeable alternative, the ability to:

1. Be charged in the foreign currency e.g. USD
2. Agree a fixed exchange rate for a period
3. Correct monthly for currency fluctuations

The alternative options above are subject to individual discussion and additional terms, available on request.
