Description - Course ¹	Detail	Unit	List Price	with Premier Success	with Signature Success
Getting Started with Anypoint Platform (Mule 4)	This introductory course is for anyone involved in an Anypoint Platform project who wants to get hands-on experience learning about the platform and how to use it to discover, consume, design, build, deploy, manage, and govern APIs. Students will not write any code in this course This course is not for developers and architects who are going to take the Anypoint Platform Development: Fundamentals (Mule 4) course, which includes this content and more.	Self-paced	£0.00		
		2-day public (per seat)	£1,368.42	£1,026.32	£889.47
		2-day private (up to 12 students)	£11,578.95		
Anypoint Platform: API Design	This course is for API designers, developers, and architects who want to get hands-on experience creating well-designed, modular API definitions using RAML 1.0 and Anypoint Platform.	2-day public (per seat)	£1,368.42	£1,026.32	£889.47
		2-day private (up to 12 students)	£11,578.95		
Anypoint Platform Development: Fundamentals (Mule 4)	This course is for developers and architects who want to get hands-on experience using Anypoint Platform to build APIs and integrations. In the first part, students use Anypoint Platform to discover, consume, design, build, deploy, manage, and govern	Self-paced	£0.00		

	APIs. In the second and third parts, students focus on using Mule 4 and Anypoint Studio to build applications for use as API implementations and integrations. The course prepares students to take the MuleSoft Certified Developer – Level 1 (Mule 4) exam. The instructor-led course includes two exam attempts.	5-day public (per seat)	£3,421.05	£2,565.79	£2,223.68
		5-day private (up to 12 students)	£28,947.37		

MuleSoft Training		Unit Price			
Description - Course ¹	Detail	Unit	List Price	with Premier Success	with Signature Success
Anypoint Platform Development: Mule 4 for Mule 3 Users	This course is for experienced Mule 3 developers who want to quickly uplevel their skills to Mule 4. The course is hands-on and focuses on what's new and/or different in Mule 4 and Anypoint Studio 7. The course prepares students to take the MuleSoft Certified Developer - Level 1 (Mule 4) exam or the MuleSoft Certified Developer - Level 1 (Mule 4) DELTA exam. The instructor-led course includes two exam attempts.	Self-paced	£0.00		
		3-day public (per seat)	£11,000.00	£1,539.47	£1,334.21
		3-day private (up to 12 students)	£1,300.00		
Anypoint Platform Development: DataWeave 2 (Mule 4)	This course is for developers interested in advancing their DataWeave 2 skills beyond those taught in the Anypoint Platform Development: Fundamentals (Mule 4) course.	2-day public (per seat)	£11,000.00	£1,026.32	£889.47
		2-day private (up to 12 students)	£0.00		
Anypoint Platform Development: Production-Ready	This course is for developers who have mastered the fundamentals of creating Mule applications with Anypoint Studio and Anypoint Platform and now want to learn the skills	3-day public (per seat)	£3,250.00	£1,539.47	£1,334.21

Development Practices (Mule 4)	and best practices to implement production-ready Mule applications — applications that are ready to be used in a DevOps environment in professional software development projects.	3-day private (up to 12 students)	£27,500.00		
Anypoint Platform Development: Production-Ready Integrations (Mule 4)	This course is for developers who have mastered the fundamentals of creating Mule applications with Anypoint Studio and Anypoint Platform and now want to learn the skills and best practices to implement production-ready integrations — applications that apply essential integration patterns to take on the production challenges of distributed communication.	4-day public (per seat)	£2,736.84	£2,052.63	£1,778.95
		4-day private (up to 12 students)	£23,157.89		

MuleSoft Training		Unit Price			
Description - Course ¹	Detail	Unit	List Price	with Premier Success	with Signature Success
Anypoint Platform Architecture: Application Networks	This course teaches experienced enterprise and solution architects how to direct the emergence of an effective application network out of individual integration solutions following API-led connectivity across an organisation. It is case-study driven, with the solution architecture and effect on the organisation's enterprise architecture for two strategic change initiatives being documented as the course progresses. This course prepares students to take the MuleSoft Certified Platform Architect - Level 1 certification exam and includes two exam attempts.	3-day public (per seat)	£2,052.63	£1,539.47	£1,334.21
		3-day private (up to 12 students)	£17,368.42		

Anypoint Platform Architecture: Integration Solutions	This course teaches experienced solution and technical architects or lead/senior developers how to design integration solutions using Anypoint Platform that meet functional and non-functional requirements. It builds on prior experience developing and deploying Mule applications, and gives concrete guidance on how to design integration solutions for the Mule runtime (both Mule 4 and Mule 3) in the various deployment options supported by the Anypoint Platform. It is case-study driven, with the solution architecture and effect on the organisation's overall architecture being documented as the course progresses. This course prepares students to take the MuleSoft Certified Integration Architect - Level 1 certification exam and includes two exam attempts.	5-day public (per seat)	£3,421.05	£2,565.79	£2,223.68
		5-day private (up to 12 students)	£28,947.37

Anypoint Platform Operations: CloudHub	This course is for all operations and administration personnel, developers, and architects who want to get hands-on experience managing and monitoring Mule applications deployed to CloudHub.	2-day public (per seat)	£1,368.42	£1,026.32	£889.47
		2-day private (up to 12 students)	£11,578.95		
Anypoint Platform Operations: Runtime Fabric on Virtual Machines	This course is for Anypoint Platform administrators who want to learn the skills and best practices to install, operate, and maintain Runtime Fabric on virtual machines (VMs) or bare metal. In the hands-on exercises, this course uses EC2 instances	2-day public (per seat)	£1,368.42	£1,026.32	£889.47

	on Amazon Web Services (AWS), but the process and steps are similar for other VMs. For Runtime Fabric installations on bare metal, the majority of the course is applicable except for the section on installation.	2-day private (up to 12 students)	£11,578.95		
Anypoint Platform Operations: Runtime Fabric on Self-Managed Kubernetes	This course is for Anypoint Platform administrators who want to learn the skills and best practices to install, operate, and maintain Runtime Fabric on an existing Kubernetes environment on Amazon EKS, AKS, or GKE. In the hands-on exercises, this course uses a Kubernetes cluster on Amazon EKS, but the steps are the same with minor command changes for a Kubernetes cluster on AKS or GKE.	2-day public (per seat)	£1,368.42	£1,026.32	£889.47
		2-day private (up to 12 students)	£11,578.95
