Service Tier Overview

Our flexible subscription model aligns with organisational maturity, deployment complexity, and risk tolerance. Each tier delivers comprehensive cryptographic intelligence, tailored to specific operational requirements.

Designed to kick-start post-quantum readiness assessments, Axis12's service bundles help any organisation take the first step towards identifying their cryptographic assets, quantifying risks, and developing an initial remediation plan. Incorporated with appropriate training, Axis12 experts help impart your organisation with the essential knowledge required to build any PQC programme and align internal policies with industry best practice or regulatory standards.

The Axis12 'Kick-Starter' offers either 'one-time' assessment delivered in under one month, or a 'continuous' service for a minimum duration of 1 year. The pricing model operates on a 'volume-discount' basis; as volume increases, unit price decreases.

Continuous assessment

Tier	Bronze	Silver	Gold	Platinum
Cost	£35,000	£70,000	£115,000	Custom Pricing
Coverage	Unlimited External Assets	3 Sensors <10K Assets	6 Sensors <25K Assets	Unlimited
Suitable for	Rapid extensive external cryptographic posture review and reporting	Mid-size organisations starting cryptographic governance	Regulated Large organisations	Critical National Infrastructure & Global organisations

All prices refer to the initial first year of service only, excluding VAT. For external-only services, project size and associated costs are determined by organisation employee count.

One-time assessment only (excludes training and policy alignment aspects)

	Bronze		Silver	Gold	Platinum
Coverage	External only based on employee count		3 Sensors <10K Assets + unlimited external scan	6 Sensors <25K Assets + unlimited external scan	Unlimited
	<3k	£6,000	£15,000	£25,000	POA
	<10k	£11,500			
	<15k	£17,500			
	<25	£23,000			
	<50k	£28,000			
	>50k	POA			

Discounts are available for multi-year commitment; 2.5% @ 2-year service duration, 5.0% for 3-year service (paid up-front annually in equal portions).

Multi-year pre-payment attracts a further 2.5% discount.

Note: An 'asset' is defined as a single instance of a physical, or virtual system, with a unique IP Address. These 'assets' will likely contain multiple cryptographic assets.

Bespoke Configuration and support

We can also accommodate custom configuration where resource allocation not covered by our standard server profiles is required. Please refer to our rate card using the link below.
