Price

£1,300 + VAT per unit per month:

- A unit consists of the software and systems for hosting a single Form capable of processing up to 30,000 Form submissions per year with the capability to seamlessly scale the solution by adding additional units as required.
- A Form can have multiple entry points, multiple steps, as much conditional logic and validation as necessary, as well as multiple exit points but only a single point of data submission. Multiple data submissions points can be achieved via additional Forms.
- If you want to edit the content on the Form yourself, we can provide you editor accounts at no additional cost.
- Full user documentation and 1-hour familiarisation session via conference call.
- Maintenance and support of core service: We ensure the underlying framework is always up to date with latest security patches and is available 24/7/365.

Customisations

Form Building

A well specified Form (in terms of the fields, steps, validation, and conditional logic), typically takes 1 day to build. However, as most clients like to user test, and then iterate between tests, you should budget for more than one day. Our Forms configuration costs £650 per day.

Form Customisation

Where you require logic or functionality that our standard Form solution does not offer, we are happy to customise the Form behaviour at a cost of £750 per day.

Microsoft Dynamics Integration

We can integrate your Form with Microsoft Dynamics assuming a suitable API is available. Simple integrations can be performed by our senior developer at £750 per day. More complex integrations may require some Technical Architecture input at £850 per day.

Additional Support

Our standard support covers all aspects of the core service, including regular implementation of security updates but does not extend to supporting configuration or changes to the Forms themselves. Extended support that covers the Forms (and the users of the Forms) is not typically required but can be provided on request. Discounts are available for block bookings.

Training

If you intend on maintaining the content on the Forms in-house, we offer a 2-hour training session for up to 15 people at a cost of £400 plus VAT (plus travel/accommodation expenses where required).

Bespoke Configuration and support

We can also accommodate custom configuration where resource allocation not covered by our standard server profiles is required. Please refer to our rate card using the link below.
