Price

The hosting of our solution begins at £1,300 + VAT per unit per month. A unit consists of 2 CPU cores and 2GB RAM.

The number of units you require will depend on the number of concurrent* users.

Typical sizing scenarios:

- 1 unit – For one or two authors
- 3 units – For small teams of up to 10 concurrent authors. (teams of up to 50)*
- 6 units – For large organisations of up to 50 concurrent authors. (teams of up to 250)*

*'Concurrent' means users that are authoring/editing documents at the same time. In practice, 'concurrent users' is usually a far lower figure than 'total users', as the activity of users is spread out throughout the working day

Additional units can be added seamlessly as and when needed.

Bespoke Configuration and support

Most of our implementations require some degree of customisation. You can view our rates at the following link.
