All Unit prices include license and subscription fees for the first year including mandatory business critical (24x7) support and maintenance. Multi-year agreements can be purchased up to three years on an upfront or annualized basis.

All licenses are included with 24x7 support

Licence definitions.

A Migrated User Account is a single Windows-based or Cloud-based service (e.g., Office 365, Google App, Jive) user account to be migrated. Software licensed by this License Type may only be used for one migration project (from one environment to another environment).

A Managed Person is any full-time, part-time, or contract employee, or contractor of Customer with one or more LAN, WAN, Cloud, or on premises based accounts capable of being managed by the Software.

Erwin Data Connector Notes

- The erwin DBT Reverse Engineer Smart Connector will parse the DBT scripts to create metadata and mappings in the erwin Data Intelligence Suite for lineage and impact analysis.
- erwin Microsoft Excel Reports Smart Connector reads Excel reports metadata to create mappings and metadata for data lineage of each Excel workbook
- erwin Wherescape Reverse Engineering Smart Connector reads information from a Wherescape database and creates Mappings for each stage eg Stage Dimension etc in the Mapping Manager thereby capturing its lineage
- erwin Fivetran Reverse Engineering Smart Connector replicates connector information of Fivetran into the erwin Data Intelligence Suite using APIs and creates relevant mappings under the erwin DI Mapping Manager
