Cyber Enhanced Security Professional Services

Vodafone Business Security Enhanced (VBSE) is dedicated to protecting your critical service and your data. Based in dedicated secure locations and staffed by security cleared personnel from the account management team through to design, installation and operations.

VBSE has state of the art systems and locations, the security of which is approved by our existing customers; all are subject to significant rolling investment to maintain security.

Pricing

Vodafone will carry out a full assessment of your requirements at the point of engagement. Depending on the service required we will conduct reviews of the following:

- Cyber security capabilities to understand cyber risks and how to overcome them
- Technical security assessments and penetration testing services to identify areas of cyber vulnerability within your organisation.
- Ongoing incident response testing and support to help you reduce the likelihood and impact of security breaches
- Other professional services not captured by the above

A quotation will be provided following the assessment. This quotation will be based on:

On-Boarding One Time Charge	Baseline Monthly Service Charge	Monthly Charge/Device
Dependent on service type (Dedicated or shared)	Dependent on service type (Dedicated or shared)	Dependent on service type (Dedicated or shared)
(Pricing subject to specific requirements)
