Vodafone Business Security Enhanced (VBSE)

VBSE is dedicated to protecting your critical service and your data. Based in dedicated secure locations and staffed by security cleared personnel from the account management team through to design, installation and operations.

VBSE has state of the art systems and locations, the security of which is approved by our existing customers; all are subject to significant rolling investment to maintain security.

Pricing

Vodafone will carry out a full assessment of your requirements at the point of engagement. The assessment will look to capture the following metrics:

- Number of assets
- Resilience requirements
- Platform requirements

A quotation will be provided following the assessment. This quotation will be based on:

On-Boarding One Time Charge	Baseline Monthly Service Charge	Monthly Charge/Device
Dependent on service type (Dedicated or shared)	Dependent on service type (Dedicated or shared)	Dedicated: £40 Shared: £30
(Pricing subject to specific requirements)		

Notes

Min term applies (12 months)

Price covers the following:

- UK SOC
- 24x 7 Service
- Up to DV cleared support
- Prices exclude VAT

Prices above exclude:

- On-Boarding One Time Charge
- Baseline service charge based on dedicated solution or shared option
- Termination charge calculations

Changes:

- Changes to your deployment will be managed an agreed change management process. Professional service charges may apply.
