

Professional Services: Cloud Readiness Assessment

The future is exciting.

Ready?

Cloud Readiness Assessment

Establishes a cloud maturity baseline and identifies the potential scope of changes to the current IT application portfolio and technology landscape moving to the cloud.

All prices **Exclude** Travel expenses where applicable.

The services listed are delivered as a 'one time service' individually or as part of an overall solution.

The Cloud Readiness Assessment is a fixed engagement assessment scaled by the number of workloads (from 0-10 up to 50), the assessment will deliver a report providing a high level view of the suitability of applications for migration, along with a suggested target architecture and roadmap for delivery. If effort is required beyond this, then bespoke pricing will be required.

Cloud Readiness Assessment Services	No. Of Applications	List Price UK (OTC)
