Amazon Web Services (Standard) – Pricing Document
G-Cloud 15

Amazon Web Services (AWS) Standard Service

All pricing for Amazon Web Services (AWS) is based on customer usage. The core offering is made up of three foundational elements:

- AWS Platform services
- AWS Platform Support
- Cloud Assessment:
 - Standard (Default Offering)

It is an OPEX based pricing model – the customer will pay for what usage they use.

Product	Product Component	Pricing Approach
AWS Resell	AWS Platform Services • As per AWS Retail service • Customer consumes services via AWS portal • Billing Via Vodafone	AWS List pricing https://aws.amazon.com/ec2/pricing/
	AWS Platform Support • Feature parity with AWS Business Support	Aligns with AWS list Pricing for 'Business Support' Calculated using a set of bands of monthly AWS Platform spend in USD at an associated % (See rate card below)
	Cloud Assessment Std Report & Billing Services • Automated monthly CloudHealth reporting • Consolidated Billing	Charged as an uplift of 3% on monthly AWS Platform Services spend

Amazon Web Services (AWS) Platform Support
