SECURE CLOUD SERVICES UP TO SECRET

CACI design and implement accredited public, private and hybrid cloud environments that meet MOD and wider HMG Cloud Security Principles and are suitable for data classified OFFICIAL (SENSITIVE) and SECRET. This includes development, test and operational environments hosting enterprise level applications. Our expert cloud engineers work with MOD and HMG to deliver a solution that minimises security and compliance risk. Features of the service include:

- Designed for OFFICIAL (SENSITIVE) and SECRET in-line with MOD, NCSC, and CIS principles
- Monitoring and Audit solutions for security and compliance including GDPR
- Reliable, repeatable and scalable solutions using Infrastructure as Code (IaC) best practice
- Architectural best practices in line with the Well-Architected Framework and client needs
- Solutions tailored to your specific data and security requirements
- Scalable solutions suitable for development, test and production environments
- Identity and Access Management (IDAM)

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Cloud Support Rate Card which shows the range and cost of expertise
