SCIENTIFIC SYSTEMS MODERNISATION, MIGRATION AND SUPPORT

CACI have experience in platform modernisation and development of scientific systems for migration, hosting and support within cloud environments.

Features of the service include:

- Support for Fortran, Matlab, Python, Java, C/C++, C#/.Net
- Optimising legacy code and improving security compliance
- Automated testing frameworks and code analysis tools e.g. SonarQube
- Experienced in scientific data formats e.g. GRIB/NetCDF
- High-Performance scientific computing optimised for Fortran-based applications
- Cloud agnostic: experience across AWS, Azure, Oracle and on-premise
- Migrate from legacy to modern languages
- Expose legacy services as microservices with REST APIs
- Use of open standards
- Web/Portal: Javascript (Angular/JQuery/Dojo/OpenLayers/Leaflet),HTML, CSS, XSLT, Flex, ESRI

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Support Rate Card which shows the range and cost of expertise.
