

# PRICING DOCUMENT

## TECHNICAL DESIGN AUTHORITY

Our Technical Design Authority (TDA) service is to oversee and guide the technical direction of Cloud projects and products within your organisation. We ensure you align to business requirements and support the delivery of strategic business objectives and outcomes through your adoption of Cloud technologies, safeguarding investment in Cloud.

Features of the service include:

- Service blueprints and design parameters undertaken by CACI experts
- Assessment of architecture, technical and schedule risks and issues
- Assessment of compliance with contract documents, requirements and dependencies
- Assessment of compliance with architecture artefacts and high-level designs
- Assessment of key technical and architecture options and designs
- Production of options appraisals to support senior management decisions
- Responsive project and programme methodologies based on Agile
- Experienced in adopting different enterprise architecture approaches; e.g. TOGAF/SABSA
- Experienced in industry standards for live operation; e.g. ITIL

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

| Model                    | Detail                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Time and Materials (T&M) | T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.                                                                                                                                                                                                                |
| Fixed Price (FP)         | Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card. |
| Managed Service (MS)     | Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.                                                                                                                                                                                                    |

Full details and pricing can be found within CACI's published Lot 3 - Support Rate Card which shows the range and cost of expertise.
