ELASTIC CONSULTANCY

CACI offers comprehensive Elastic Search and Elastic Cloud consultancy services, to power your searches of data across your cloud deployments. This facilitates faster searches, even in huge datasets, simplifies your cloud deployments and reduces cost, and provides enhanced security across your cloud-based applications. Features of the service include:

- Managed Services: Use of ElasticStack (Elasticsearch/Kibana/etc) for data analysis.
- Leverage super-fast searches and in-depth data analysis.
- Search and Indexing; reusable components/interfaces to power search applications.
- Easily scale resources up/down based on your needs.
- Search/schema migration; existing solutions (e.g. Apache Solr) to ElasticSearch.
- Manage your data with searchable snapshots/datarollups/lifecycle management.
- Security: use features like encryption, access control, single sign-on.
- Security: integrate existing user authentication models (e.g. Azure AD).
- Documentation: our value-add is to provide best practice guidance.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Support Rate Card which shows the range and cost of expertise.
