IMPULSE - EDUCATION INFORMATION MANAGEMENT SYSTEM

Impulse is a flexible, modular, web-based education management system that is easy to implement and use. It is optimised for mobile devices and provides secure portal access, enabling greater efficiency and effective collaboration around a centralised pupil record to transform services.

Impulse is a mature, fully supported education solution that is compatible and comprehensive, covering all aspects of statutory education..

Our UK-hosted service delivers cost savings through improved internal efficiency and a digital-first approach to school and stakeholder collaboration. It prioritises children and families, driving continuous improvement in services with a focus on better child journeys and outcomes.

Impulse Nexus offers a comprehensive range of features and benefits:

- **Fast and intuitive** – reduces stress with rapid data capture to save time and effort
- **Process automation** – streamlines internal workflows for greater efficiency
- **Evidence-based practice** – builds a clear record of effectiveness and outcomes
- **Expert implementation and support** – delivered by dedicated staff with domain expertise
- **Secure and scalable** – a mature, highly available system you can rely on
- **Inclusive by design** – innovative multilingual structured pupil record promotes digital inclusion
- **Collaborative case management** – supports real-time, multi-professional teamwork
- **Customisable interface** – configurable home page, dashboards, reports and visualisations with data drill-down
- **Seamless integration** – standards-based data exchange with other services
- **Proven methodology** – experienced consultants and values ensure smooth, effective implementation

Impulse includes a wide range of modules (see Service Definition), which can be implemented individually, in customised combinations, or as a complete suite. Pricing is based on the selected modules, the size of the user base, and the level of configuration required. The table below outlines the available modules and their associated costs.

Service	Price	Detail
Initial Hosting set-up	£10,925	Includes software installation, configuring UK based, secure environment (test and live instances) setting up users and two factor authentication/single sign-on
