CACI Mood Professional Services

CACI's Mood Professional Services provide tailored cloud-aligned support for organisations seeking to rapidly define, prototype and deliver modern applications that deliver measurable business value. We bring together decades of experience in data, software engineering, cloud transformation and AI-driven service design to accelerate the journey from idea to working solution. Customers can select from three fixed priced options as per the packages outlined below. These include Mood Solutions Dev & Mang modules with a focussed BA and architecture and development resources for rapid prototyping, application creation.

Pricing Approach

Package	Small	Medium	Large
Fixed Price Per Annum	£57,900	£115,800	£231,600
Numbers of Professional Days	60	120	240
Number of Sprints	3	6	12

Pricing Notes:

- All prices are exclusive of VAT.
- A pre-contract discovery workshop is recommended to understand the full scope of your requirements and plan the configuration work, prior to agreeing a price for the package.
- Larger volumes will attract a day rate discount as agreed during engagement and discovery
- The monthly licence includes support and is for a minimum of 12 months.
- Full pricing for Professional Services can be found in the CACI's published Lot 3 - Cloud support rate card. These show the range and cost of expertise.
