RAPID AGILE PROTOTYPING AND PROOF OF CONCEPTS FOR CLOUD SERVICES

CACI help organisations explore the benefit of moving services to the cloud and de-risk delivery through agile prototypes and Proof of Concepts. We produce rapid prototypes across a wide range of cloud technologies. Following Agile principles, we work collaboratively to help customers learn quickly at low cost.

Features of the service include:

- Collaborative, agile approach focused on delivering value and de-risking early
- Fully demo-able Prototypes and Proof of Concepts (PoCs) in days and weeks not months
- Expertise in a wide range of leading-edge cloud technologies
- Cloud aware and agnostic design patterns with AWS and Azure
- AWS and Azure Partner
- AWS Certified Solutions Architects, Cloud Engineers and Developers
- Designed for UK OFFICIAL (SENSITIVE) in-line with NCSC and CIS principles.

Cleared engineers including Security Check (SC) and Developed Vetting (DV) CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Cloud Support Rate Card which shows the range and cost of expertise.
