ENTERPRISE ARCHITECTURE SERVICES

CACI has experience in providing full architecture services to plan cloud migrations, from full enterprise level solutions to targeted solutions. Features of the service include:

- Enterprise Architecture; developing organisation wide architecture
- Expert development of specific architecture domains
- Business Architecture; capability modelling, process modelling
- Information Systems Architecture; incorporating applications architecture and data architecture
- Technology Architecture; Cloud platforms and technology optimisation
- Security Architecture; cyber security domains, RBAC, risk management, resilience
- Solution Architecture; solution focussed and aligned to enterprise
- Tailored approach using expertise in TOGAF, Agile EA and Zachman

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.

Full details and pricing can be found within CACI's the published Lot 3 - Support Rate Card which shows the range and cost of expertise.
