DIGITAL FORENSIC INVESTIGATION SERVICES

CACI offers a range of accredited digital forensic investigation services designed specifically for Law Enforcement related clients who are involved in the investigation of offences involving data from computer, mobile and cloud sources.

Our services and capabilities mirror those provided within Police Digital Forensics Laboratories, creating additional capacity for this industry and other types of digital forensic investigation by producing evidence and reports to Forensic Science Regulators standards.

- Data acquisition, processing and analysis services on a wide range of data sources.
- Secure laboratory environment with trained and experienced vetted staff, with years of involvement in Police investigations
- Accredited by UKAS to ISO/IEC 17025 for Digital Forensic investigation services. (See UKAS Website for current scope.)
- UKAS assessed compliance to Forensic Science Regulator Codes of Practice and ILAC G19.
- Forensic courier service ensures full evidential continuity is maintained throughout the end-to-end service.
- Extensively documented processes supports the traceability of all activity.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Cloud Support Rate Card Rate Card which shows the range and cost of expertise.
