

PRICING DOCUMENT

INTELLIGENCE PLATFORM

1. Pricing for New Customers

Where an organisation does not currently licence any CACI data products, the minimum required bundle consists of:

- **Intelligence Platform licence:** £10,000 per year
- **Acorn data licence:** £16,000 per year

Total annual fee: £26,000

This represents the minimum entry requirement for new customers.

2. Pricing for Existing CACI Customers

For organisations that already license CACI data products, the Intelligence Platform is priced as an uplift to their existing annual fee.

- The uplift is **20% of the customer's current annual licence fee**,
- **Subject to a minimum charge of £10,000**,
- The Intelligence Platform fee will therefore be **the greater of (a) 20% uplift or (b) £10,000**.

This approach ensures proportionality across organisations of different sizes while maintaining a clear minimum cost threshold.

3. Included in the Intelligence Platform Fee

The annual Intelligence Platform fee includes:

- **325 million tokens** for platform usage
- **Up to 5 named users**
- **Access to the Essentials package of MCP Servers**, including core data, analysis and visualisation tools
- Additional data servers are included where the customer licenses relevant CACI data products (e.g. Household Acorn, Paycheck)

4. Additional Usage and Additional Users

- Additional user bands follow a stepped pricing model (0–5 users included, with percentage uplifts for higher user volumes).
- If the organisation exceeds the included token allocation, additional usage is charged at **£1,000 per 50 million tokens**.
