METEOROLOGICAL, OCEANOGRAPHIC AND HYDROLOGICAL CLOUD SERVICE DELIVERY AND SUPPORT

CACI has experience in providing Hydrographic, Geospatial, Meteorological and Oceanographic (Hydro/METOC/GEOMETOC) software and consulting services including Business Analysis/Discovery, Concept Development, System Design/Architecture/Development/Configuration & Deployment, Strategy, Planning and Project Management for solutions hosted in secure cloud environments, in both UK and international domains. We also offer managed services and through-life support. Features of the service include:

- Cloud agnostic: experience across AWS, Azure, Oracle and on-premise
- Frameworks: Hazelcast, RESTeasy, Ehcache, Struts, BIRT, Freemarker, Camel, Apache, Dropwizard
- RDBMS Databases: Oracle, Derby, SQLServer, PostgreSQL/PostGIS, SQL, MySQL, DB/2, DBA
- Big Data Solutions/NoSQL: MongoDB, Hadoop, Lucene, Solr, ElasticSearch
- Languages: Java/Spring, Python/Flask, C#/.Net, C/C++, Fortran
- Web Services: HTTP/HTTPS, FTP, OGC
WCS/WMS/WFS/WPS/CSW/WMC/OWS Context, SOAP, REST/RESTful, SOA
- Web/Portal: Javascript (Angular/JQuery/Dojo/OpenLayers/Leaflet), HTML, CSS, XSLT, Flex, ESRI
- Platforms: Linux/Unix/Windows/iSeries, MODCloud, VMWare, Mobile, DII, JMNIAN, DGS
- Data Formats: NetCDF/GRIB, HPAC/DTSV, PP, JSON, XML/GML/KML, ISO19115/ISO19139, S57/S-57/S-100/S100
- Open Standards, DGIWG Profiling, Spatial Data Infrastructure (SDI), Geo/GIS Expertise.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
