CKAN CONSULTANCY

CACI offers comprehensive CKAN consultancy services, transforming data into actionable insights. Our customised data catalogues, specialised data engineering, and strategy consultation empower organisations to maximise their data potential. With extensive real-world experience, our CKAN implementations adhere to GDS design standards for optimal performance and usability. Features of this service include:

- Tailored CKAN solutions aligned with real-world use cases.
- CKAN deployments built to meet GDS design standards.
- Resilient and scalable CKAN deployments using microservices.
- CKAN capabilities for user registrations and authentication.
- Integration with external authentication providers for seamless user authentication.
- Full Technology Stack Expertise
- Backend and frontend customisations to meet specific organisational needs.
- Enhancements based on GDS standards for improved user experience.
- Specialised data engineering services to optimise data management and processing.
- Expert guidance on data strategy to maximise value.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's
