SECURE ASSURED LANDING ZONE

CACI's Secure Assured Landing Zone service provides best-practice design, implementation and maintenance of landing zone solutions on both AWS and Azure. The service enables rapid onboarding of any number of diverse workloads to secure, isolated environments with built-in preventative, detective and proactive controls.

- Aligned with AWS and Microsoft Cloud Adoption Frameworks to help you achieve your cloud and digital transformation goals.
- Enables rapid onboarding of workloads to compliant environments.
- Optimisation of costs, resilience, performance, scalability and security posture.
- Architectural roadmap with dependencies, prioritisations and risk management.
- Compliance with security standards and regulations
- Upskilling of customer teams through open and collaborative approach.
- Delivered by technical experts experienced in critical HMG production workloads.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Cloud Support Rate Card Rate Card which shows the range and cost of expertise.
