LEGACY MIGRATION AND MODERNISATION

CACI navigates legacy systems with expertise in digital transformations for large organisations and large datasets. Our process involves assessing complex data rules, developing transformation scripts for data cleansing/re-classification, and enhancing metadata for new structures.

CACI also have expertise in modernising and migrating legacy IT infrastructure ensures seamless transitions and improved efficiency. Features of the service include:

- Legacy IT modernisation mitigating technical debt and cyber risks.
- Expertise in migrating legacy systems to cloud.
- Upgrade and re-engineer legacy services for efficiency.
- Customised ETL scripts for seamless data migration.
- Safely retire outdated systems to streamline operations.
- Assessment and roadmap development for modernisation.
- Evaluate legacy challenges against target vision for transformation.
- End-to-end execution and assurance of migration projects.
- Ensure security and regulatory compliance throughout modernisation.
- Maximise ROI through strategic modernisation initiatives.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Support Rate Card which shows the range and cost of expertise.
