API CONFIGURATION, MANAGEMENT AND DEPLOYMENT

CACI's service provides API Management Gateway and Portal expertise for the design, development, configuration, hosting and through life support of enterprise grade API solutions for public and private cloud environments, including AWS, Azure and Google/GCP. CACI also provide AWS development, and configuration of AWS based cloud solutions. Secure, scalable, robust - leveraging AWS PaaS, SaaS and IaaS offerings.

Key features of this service include:

- Design/Configuration and Deployment of API Portal and Management Gateway solutions
 - Experienced in license and API key management
 - High volume API transaction and big data optimisation
 - Gateway optimisation for dynamic data (e.g. weather, environment, real-time etc.)
 - Evaluation and selection of commercial API management solutions
 - API mapping between 3rd Party solutions and cloud platform providers
 - 3rd Party and AWS Developer Portal Customisation (including Drupal/JavaScript)
 - Portal CMS configuration and API documentation (e.g. Swagger)
 - AWS, Azure, Google/GCP and on-premise expertise. Experts in cloud migration.
 - Hosting and Through Life Support.
- CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.

Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
----------------------	---

Full details and pricing can be found within published Lot 3 - Cloud Support Rate Card which shows the range and cost of expertise.
