CACI ACCESSIBILITY AUDIT AND TESTING SERVICES

CACI blends the power of deep accessibility insights with user experience expertise to deliver inclusive public services that transform lives for the better.

As members of the International Association of Accessibility Professionals, we're experts in delivering detailed accessibility audits against WCAG standards. This includes a balance of manual code auditing, automated testing, and facilitating usability testing with disabled users across a wide-range of assistive technology, in-line with the GOV.UK Service Standard.

Our team includes specialist accessibility consultants with lived experience of disability, and designers and developers familiar with the tools needed to successfully implement accessible services compliant with WCAG 2.2 as a minimum.

Our services include coaching and empathy labs to help develop knowledge around accessibility in your teams, so they can embed inclusive design and best practices in their roles.

Key benefits of our service:

- Deliver an accessible service for disabled/neurodiverse users
- Service meets WCAG 2.2 AA standards as a minimum
- An inclusive service that benefits all users (curb cut effect)
- Save time/money compared to fixing accessibility issues later
- Embed accessibility and inclusive thinking at all organisation levels
- Knowledge transfer of accessibility best practices across teams
- Comply with the Public Sector Bodies Accessibility Regulations 2018 (PSBAR2018)
- Pass GDS/GOV.UK Service Assessments first-time at every stage (Alpha/Beta/Live)
- A highly-experienced team of accessibility experts with a proven track record
- Data/security in-line with Cyber Essentials Plus and ISO 27001

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Cloud Support Rate Card.

Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Cloud Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Cloud Support Rate Card Rate Card which shows the range and cost of expertise.
