AWS LANDING ZONE ACCELATOR

CACI can provide you with:

- A license-free, game-changing Secure Cloud Platform Accelerator, Jezero, built on AWS Landing Zone Accelerator(LZA), deployable within a day by our certified experts to accelerate your cloud journey.
- A team that starts by understanding your unique requirements, then designs, customises, and builds a solution leveraging pre-configured best practices, modular architecture, and out-of-the-box services to meet the highest standards of security, reliability, performance, and operational excellence, validated by an AWS Foundation Technical Review (FTR).
- A decade of LZA expertise, Jezero's advanced technology, and our certified professionals' deep knowledge to transform your cloud migration journey, ensuring a seamless transition with the assurance and confidence you need.

We have successfully:

- Expertly delivered the award-winning Home Office EBSA platform, managing 400K+ containers daily for three departments and over 50 development teams.
- Developed the NHS Test and Trace Halo Platform, ensuring secure support for 22M+ users across 100 AWS/Azure cloud accounts.
- Delivered enterprise cloud platform services to high-profile clients, including NATO.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the Lot 3 - Cloud Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the Lot 3 - Cloud Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL_V3 aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the Lot 3 - Cloud Support Rate Card.

Full details and pricing can be found within CACI's Lot 3 - Cloud Support which shows the range and cost of expertise.
