PHP DEVELOPMENT

CACI specialise in delivering tailored PHP solutions, leveraging industry-leading frameworks like Laravel amongst others. Our team of experienced PHP developers is dedicated to delivering high-quality solutions. From custom application programming to database development and migrations, we provide end-to-end PHP development services to help you achieve your goals efficiently and effectively. Features of the service include:

- Web Application Development building robust web applications with PHP
- Integrate third-party APIs seamlessly into your existing PHP applications.
- Connect PHP applications with databases for data management.
- Ongoing maintenance and support services keeping your PHP applications secure.
- Enhance the performance of PHP applications for improved user experience.
- Implementation of security measures, protecting PHP applications from cyber threats.
- Designing scalable PHP solutions to accommodate growth and evolving needs.

CACI prides itself in being easy to do business with. After actively engaging with our customers to make sure our solution is the right fit, we can offer a flexible commercial solution to ensure value for money. We have three typical models, namely Time & Materials, Fixed Price or Managed Service based. The following table provides more detail:

Model	Detail
Time and Materials (T&M)	T&M is appropriate where the requirements need further elaboration and are subject to change, or where customer consumption of certain elements, such as Architect or DevOps resource is variable. T&M is typically calculated on day rate using the published Lot 3 - Support Rate Card.
Fixed Price (FP)	Fixed pricing can be offered when the statement of work requirements are clearly defined and agreed by both parties. This necessitates the availability of mature and accurate input documents so that the amount of effort to achieve the project deliverables can be calculated. In addition, any project risks, issues, assumptions or dependencies need to be stated and measured. Pricing is available on request and is based upon the day rates shown in the published Lot 3 - Support Rate Card.
Managed Service (MS)	Managed Services are typically delivered via CACI's 24x7, 3-tier technical support working within our ITIL aligned Service Management system. Pricing is tailored to meet the customer's Service Level Requirements and is based upon the day rates shown in the published Lot 3 - Support Rate Card.

Full details and pricing can be found within CACI's published Lot 3 - Support Rate Card which shows the range and cost of expertise.
