# 1 Service Overview

Capgemini SAP Intelligent Spend and Business Network (ISBN) Cloud Service can offer implementation of various SAP procurement and supply chain solutions with help of Capgemini's proven implementation and governance methodology, tools & accelerators.

Capgemini can implement the following solutions:

- SAP Ariba
- SAP Fieldglass
- SAP Business Network
- SAP Central Procurement

Capgemini's services also cover:

- Developing business cases and implementation roadmaps;
- Audit of existing landscape, processes and operating model. Providing recommendations for improvements;
- Implementation services, including on-premise and cloud migrations from legacy systems;
- Support and development of legacy systems prior to transition to cloud;
- Integration to third party solutions;
- Supplier enablement services;
- Catalogue enablement services;
- Support services to leverage functionality releases;
- Training and change management;
- Software subscription resell.

## 1.1 Capgemini Accelerators and Tools

- Cloud readiness assessment tool;
- Good practice templates and preparation documents;
- Pre-defined configuration workbooks;
- Pre-defined category templates;
- Demonstration systems available for day one playbacks;
- Structured, facilitated workshops to initiate a project.

While the application, middleware and database services are all hosted and expertly managed by SAP, Capgemini can help clients in the people, process, operating model and technology aspects of cloud adoption, as part of its implementation services around the following areas:

### Advisory, Assessment and Consulting

- Governance and assurance;
- Organisational Change Management (OCM);
- Target Operating Model design;
- Solution design;
- Testing;

- Transition;
- Training.

## Technical

- Integrations;
- Business intelligence;
- Application data architecture;
- Customisations and enhancements.

## Environment

- Network & storage;
- Platform and licences;
- Security & compliance.

## Support

- Application (functional / technical);
- Data strategy (purge / archival).

# 2 Business Need

In today's world, organisations are looking to reduce the cost of implementation of new business platforms by leveraging the cloud model – and achieve ROI much faster. Organisations are opting for a service-based model giving them the option to be flexible and be able to switch services, if so needed.

# 3 Our Approach

To implement the suite of SAP ISBN applications, Capgemini can use and align with the SAP Activate methodology, which is key, due to the close working relationship with SAP required during any implementation. This approach uses a high-level design phase followed by a detailed design phase which can include up to three build iterations so the customer can see the system in action during design to help make key decisions.

## 3.1 Accelerators

Core to implementation are the following series of accelerators, using Capgemini's experience, methods and tools:

- Structured, facilitated workshops to initiate the project, such as Accelerated Solution Environment (ASE);
- Cloud readiness assessment tool;
- Templates and preparation documents for SAP ISBN solutions;
- Pre-defined Configuration Workbooks;
- Pre-defined category specific templates;
- Tools and templates to improve data quality and efficiently migrate data.

## 4 Buyer Responsibilities

Please refer to the Supplier Terms listed with this service on the Platform. These may contain additional Buyer obligations/costs the Buyer is subject to that are not identified anywhere else in the Supplier's Application or on the Platform.

## 5 Service Management

Not Applicable.

## 6 Protection of Data

This service is based on a security classification of 'Official', however should you have a requirement for a different security classification that you would like us to consider, please contact us to discuss.

## 7 On-boarding and Off-boarding

Prior to the execution of the Order, the Supplier and the Buyer will agree the scope of the exit plan for the Services and a timescale for delivering an exit plan to ensure continuity of service.

Capgemini shall undertake on-boarding and off-boarding activities agreed within the Order Form and an exit plan in line with the Call-Off Contract terms which will be charged for in accordance with the Pricing section for this service.

## 8 Skills and Knowledge Transfer

Capgemini recognises that skills and knowledge transfer is a critical element in the provision of G Cloud services to public sector clients. Where possible and applicable, this forms part of the delivery plan for the service agreed at the start of the engagement. Our consultants and engineers are experienced in providing skills and knowledge transfer for major private and public sector clients.

Where appropriate, we may use a standard approach, tailored to topic, skills-gap and individual, to ensure consistency and effectiveness. The approach, Capgemini's Assess-Plan-Implement framework, has been used repeatedly by our teams to structure the work involved in transferring skills and creating new teams capable of driving and sustaining change long after the end of the formal programme. The framework can be applied throughout a project to understand knowledge transfer objectives, plan training delivery methods and materials, and deliver and evaluate success.

## 9 Vendor Accreditations/Awards

For the 13th year in a row, Capgemini has been recognized as one of the World's Most Ethical Companies® by the Ethisphere® Institute.
