1 Service Overview

Capgemini's Cloud Maturity Assessment framework can help a buyer understand their current level of maturity in the adoption of cloud technologies for digital experiences. It can assess the current level of maturity against an agreed target state and output high-level recommendations and roadmap to guide towards greater cloud adoption.

2 Business Need

Organisations can improve their business efficiencies via increased adoption of cloud technologies. Irrespective of the level to which cloud technologies are being used, with the rapid evolution of cloud technologies, improving the understanding of an organisation's maturity and the options available can facilitate improvements in organisational efficiency and experiential delivery.

3 Our Approach

Capgemini's cloud maturity assessment is targeted at helping an organisation understand how it is currently taking advantage of cloud technologies to deliver digital experiences. Capgemini work in a collaborative manner to understand the needs of the organisation and its service users as well as defining target states for the digital experiences.

The assessment makes use of both quantitative and qualitative techniques to drive an understanding of the cloud adoption maturity driving digital experiences. Research and analysis via both surveys and interviews optimises results via a combination of data driven assessment allied with a deeper insight driven appreciation.

As organisations have differing needs and cloud technology evolves quickly, both current and emerging cloud technology is assessed for suitability against both current and target states for the digital experiences offered by the organisation.

The assessment can elicit areas where an organisation will benefit from greater cloud adoption. This can in turn help define cloud adoption roadmaps and strategic initiatives. An example of the summary output of our maturity assessment is shown below:

4 Buyer Responsibilities

Please refer to the Supplier Terms listed with this service on the Platform. These may contain additional Buyer obligations/costs the Buyer is subject to that are not identified anywhere else in the Supplier's Application or on the Platform.

5 Service Management

Not applicable.

6 Protection of Data

This service is based on a security classification of 'Official', however should you have a requirement for a different security classification that you would like us to consider, please contact us to discuss.

7 On-boarding and Off-boarding

Capgemini shall undertake on-boarding and off-boarding activities agreed within the Order Form (including as a minimum an exit plan in line with the Call-Off Contract terms) which will be charged for in accordance with the Pricing section for this service.

8 Skills and Knowledge Transfer

Capgemini recognises that skills and knowledge transfer is a critical element in the provision of G-Cloud services to public sector clients. Where possible and applicable, this forms part of the delivery plan for the service agreed at the start of the engagement. Our consultants and engineers are experienced in providing skills and knowledge transfer for major private and public sector clients.

Where appropriate, we may use a standard approach, tailored to topic, skills-gap and individual, to ensure consistency and effectiveness. The approach, Capgemini's Assess-Plan-Implement framework, has been used repeatedly by our teams to structure the work involved in transferring skills and creating new teams capable of driving and sustaining change long after the end of the formal programme. The framework can be applied throughout a project to understand knowledge transfer objectives, plan training delivery methods and materials, and deliver and evaluate success.

9 Vendor Accreditations/Awards

For the 13th year in a row, Capgemini has been recognised as one of the World's Most Ethical Companies® by the Ethisphere® Institute. This is an acknowledgement of our ethical culture that makes us an employer of choice and responsible player in the eyes of our clients, shareholders, and the wider community.
