1 Service Overview

Capgemini can offer a number of solutions to help customers implement SAP's S/4HANA Applications efficiently and cost effectively.

Capgemini's S/4HANA Cloud Implementation Service can allow organisations to go-live with modern, finance and backend office applications and processes. Capgemini's processes and implementation approach can enable early realisation of benefits for our Clients.

2 Business Need

Many organisations rely on locally hosted Enterprise Resource Planning (ERP) systems for back office transaction processing, self-service and reporting. However, in reality, running and maintaining traditional, locally hosted ERP software can be difficult and costly.

Businesses require modern cloud applications that are available on a subscription basis at a known fixed price and that are kept up to date by the software vendors at no additional cost.

Their users also expect business applications that are intuitive, enable mobile working and collaboration and provide ready access to the information that they need on demand.

3 Our Approach

Capgemini can deliver a solution based on the S/4HANA Cloud application which Capgemini can implement efficiently using its proven iCaptivate methodology and cost effectively using its certified SAP consultants and Rightshore® delivery model.

3.1 SAP S/4HANA Application Scope

The following SAP S/4HANA Application Services are available for implementation based upon scope:

- Finance
- Human Resources
- Sales

4 Buyer Responsibilities

Please refer to the Supplier Terms listed with this service on the Platform. These may contain additional Buyer obligations/costs the Buyer is subject to that are not identified anywhere else in the Supplier's Application or on the Platform.

5 Service Management

Not applicable.

6 Protection of Data

This service is based on a security classification of 'Official', however should you have a requirement for a different security classification that you would like us to consider, please contact us to discuss.

7 On-boarding and Off-boarding

Prior to the execution of the Order, the Supplier and the Buyer will agree the scope of the exit plan for the Services and a timescale for delivering an exit plan to ensure continuity of service.

Capgemini shall undertake on-boarding and off-boarding activities agreed within the Order Form and an exit plan in line with the Call-Off Contract terms which will be charged for in accordance with the Pricing section for this service.

8 Skills and Knowledge Transfer

Capgemini recognises that skills and knowledge transfer is a critical element in the provision of G-Cloud services to public sector clients. Where possible and applicable, this forms part of the delivery plan for the service agreed at the start of the engagement. Our consultants and engineers are experienced in providing skills and knowledge transfer for major private and public sector clients.

Where appropriate, we may use a standard approach, tailored to topic, skills-gap and individual, to ensure consistency and effectiveness. The approach, Capgemini's Assess-Plan-Implement framework, has been used repeatedly by our teams to structure the work involved in transferring skills and creating new teams capable of driving and sustaining change long after the end of the formal programme. The framework can be applied throughout a project to understand knowledge transfer objectives, plan training delivery methods and materials, and deliver and evaluate success.

9 Vendor Accreditations/Awards

For the 13th year in a row, Capgemini has been recognized as one of the World's Most Ethical Companies® by the Ethisphere® Institute.
