1. Product Overview

1.1. Colt IP Access (Dedicated Internet Access)

Colt provides secure high-speed Internet connectivity across its core network via its Dedicated Internet Access service (Colt IP Access) which provides businesses access to the public Internet to manage their critical business applications. Bandwidth demands are growing, as applications are now much richer and more varied with a mix of collaborative, voice and video. More applications are in the cloud than ever before. Cloud transformation is driving a lot of dependence on the Internet.

Colt's IP Access service offers customers, carriers and ISPs upstream Internet connectivity to all worldwide domains, connecting via private and public peering to other networks.

Colt offers Secondary DNS services as a standard with its High-Speed IP Service. Primary DNS is available on an individual-case basis. Mail Relay services are available with Colt DIA service.

1.2. Managed Network Services

Colt's Managed Network Services is an optional service that provides a managed router at the customer premise that terminates the Colt IP Access. This service encompasses network design and engineering support to the solution, implementation management, equipment procurement, equipment installation, operations/lifecycle management for the duration of the contract.

Service Elements	Full Management
Design & Engineering	+
Equipment Procurement	+
Implementation Management	+
Equipment Management	+
Operations Management	+
Proactive Monitoring	+
Lifecycle Management	+
Software Level 1 Troubleshooting	+
Hardware Brek/Fix	+

2. Pricing Tables

2.1. IP Access Pricing Table

Access Circuits	Minimum Term	NRC (£)	MRC (£)
Fast-E 100Mbps On-Net	1 year	£ -	£
Fast-E 100Mbps Off-Net	1 year	POA (distance dependent)	POA (distance dependent)
Gig-E 1000Mbps On-Net	1 year	£ -	£
Gig-E 1000Mbps Off-Net	1 year	POA (distance dependent)	POA (distance dependent)
10 Gig-E 10000Mbps On-Net	1 year	£ -	£
10 Gig-E 10000Mbps Off-Net	1 year	POA (distance dependent)	POA (distance dependent)
Committed Bandwidth	Minimum Term	NRC (£)	MRC (£)
10Mbps	1 year	400	175
20Mbps	1 year	400	185
50Mbps	1 year	400	215
100Mbps	1 year	500	267
500Mbps	1 year	850	448
1Gbps	1 year	999	565
5Gbps	1 year	1750	1470
10Gbps	1 year	1750	2075
Router	Minimum Term	NRC (£)	MRC (£)
Type dependent on service taken	1 year	POA (Service Dependent)	POA (Service Dependent)

2.2. Optional costs

Based on the agreed scope of the project, Colt determines the appropriate resource types and the number of man-days required for each role involved in the delivery. This assessment considers the complexity of the solution, the level of governance required, and any customer-specific technical or operational needs. The final pricing is calculated by multiplying the number of man-days allocated to each resource by the applicable daily rate. The total project cost is the sum of these individual resource calculations, as outlined in the rate table below.

Optional Unit Costs	Description	Unit Price (per day)
Professional Services - Project Manager	The Colt Project Manager is responsible for the day-to-day coordination and delivery of the project, ensuring all activities are executed in line with agreed scope, timelines, and quality standards. They act as the single point of contact for the customer, managing risks, issues, dependencies, and stakeholder communication throughout the project lifecycle.	£756
Professional Services – Project Director	The Colt Project Director provides senior-level oversight, strategic guidance, and executive governance across the project or programme. They ensure alignment with customer objectives, support escalation management, and oversee financial, commercial, and delivery performance at a leadership level	£1008
Professional Services – Technical solution Manager	The Technical Solution Manager is responsible for the technical design, validation, and alignment of the solution with customer requirements. They support workshops, clarify technical dependencies, and ensure the solution architecture is implemented correctly and efficiently.	£840
Professional Services – IP Specialist	The IP Specialist provides expert knowledge in IP networking, routing, and related technologies required for the successful deployment of Colt services. They support technical design, configuration, testing, and troubleshooting activities to ensure the solution meets performance and security expectations	£756

3. Disclaimer

Colt's proposal is not intended to create a binding contractual commitment. A signed Colt agreement is required to make pricing/services effective. This document may not be altered or edited to create an agreement. If you wish to purchase services on a term arrangement, please contact your Colt Account Manager.
